

Brigham Young University REU - NSF Research Experience

June 3 - August 9, 2024

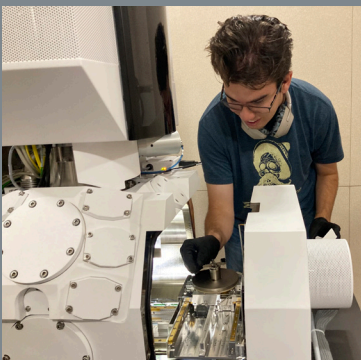

Explore summer research at BYU with many projects to choose from and topics ranging from Particle Physics to Galactic Astronomy

BYU's REU program is the place to perform your professional research with one-on-one faculty mentor guidance

Interact with students from around the world and enjoy exciting excursions to one of Utah's Mighty 5 National Parks, Mt. Timpanogos Caves, and beautiful mountain trails

Our 10 week internship includes a \$7000 stipend, round trip travel expenses to Provo and housing assistance for the duration of the program*

Apply by February 5, 2024
reu.byu.edu

Supported by funds from the National Science Foundation and BYU

*Subject to terms of BYU off-campus housing
